SUMMARY

Information Technology Engineering graduate with hands-on experience in software development, web technologies, databases, software testing, APIs, and AI/ML. Skilled in Java, Python, JavaScript, SQL, React.js, Node.js, MySQL, and MongoDB, with project experience in full-stack development, machine learning, cybersecurity, and database-driven applications.

EDUCATION

Bachelor of Engineering in Information Technology

Sep 2023 - July 2026

Vasantdada Patil Pratishthan College of Engineering & Visual Arts

- Completed with 8.08 CGPI

Diploma in Information Technology

Jul 2020 - May 2023

Government Polytechnic Mumbai

- Completed with 82.83%

WORK EXPERIENCE

Frontend Developer Intern, IBM Soft Skills

June 2024 - July 2024

- Developed responsive and user-friendly web interfaces using HTML5, CSS3, and JavaScript, with a focus on cross-browser compatibility and responsive design.

UI/UX Designer, Chandel Production

Jan 2023 - June 2023

- Designed and maintained responsive WordPress websites, managing UI/UX implementation, digital content, chatbot workflows, and website layouts in XAMPP-based environments.

PROJECTS

- Support CRM | Full-Stack Customer Support Application** - Developed a full-stack customer support ticketing application using React.js, Node.js, Express.js, and MongoDB, featuring RESTful APIs, ticket management, filtering, and database integration.
- TravAI | AI-Based Travel Recommendation System** - Built an AI-based travel recommendation system using Python, TF-IDF, content-based filtering, and Linear Regression to deliver personalized destination recommendations.
- ReconPlus | Reconnaissance Detection System** - Developed a cybersecurity assessment platform that analyzes host information, enriches vulnerability data, and applies risk scoring to generate prioritized security insights and reports.
- Plant Disease Prediction | Deep Learning Project** - Developed an image-based plant disease prediction system using Python and CNN, applying deep learning and computer vision techniques for disease classification.

ACHIEVEMENTS

- Artificial Intelligence and Machine Learning - TNS Foundation | 2026**
- Python - Udemy | 2024**
- Introduction to Cyber Security - Great Learning | 2024**
- Frontend Development - Great Learning | 2023**

SKILLS

- Programming & Development:** Python, Java, JavaScript, SQL, React.js, Node.js, Express.js, HTML5, CSS3, RESTful APIs
- Databases & Tools:** MySQL, MongoDB, Oracle Database, Git, GitHub, Firebase, XAMPP, Microsoft Excel
- Software Testing & Web Technologies:** Manual Testing, API Testing, Test Case Design, Bug Reporting, Postman, WordPress, CMS, UI/UX, Cross-Browser Compatibility
- AI & Machine Learning:** Machine Learning, Deep Learning, CNN, TF-IDF, Content-Based Recommendation Systems
